

"Parcel In - Structure Out" flood plain LIST for SCC residents - 6/21/08

Hillsborough County has released the updated flood plain lists for Sun City Center that will become effective on August 28.

In the County's press release which follows, I have emphasized the two paragraphs that are important to you if you have a mortgage, in which case the July 28 insurance deadline is very important and can save you thousands of dollars in the future. If you are on the list below and you have a mortgage but have not yet been required to buy the expensive flood insurance, you might want to consider buying one year of the cheaper insurance called PRP (Preferred Rate Policy) to get grandfathered-in - just incase your mortgage holder requires the expensive insurance in a few months. The folks that know about this stuff anticipate that it will probably be 2-3 months after the maps go effective that mortgage lenders will start notifying people of a request for flood insurance (if it affects them). That's not a formal timeline, but has been the experience for other communities that have gone through the process.

Please note that if you do not have a mortgage, there is no requirement for you to buy any kind of flood insurance.

So here's the County's press release:

Hillsborough County News Release, June 18, 2008

Gene Henry, Hazard Mitigation Manager
Planning & Growth Management

Cellular Phone: 813-546-2086

New Flood Maps Becoming Official in August. Hillsborough County has received the final version of the updated flood maps from the Federal Emergency Management Agency (FEMA). They are scheduled to become effective for flood insurance and development purposes on August 28, 2008. This process, which has been going on for the past ten years, is part of a required update of flood maps across the United States. The last time the maps were formally updated in Hillsborough County was 1992 and some parts of the County have not been updated since 1980.

If residents live in or are moving into a high-risk area with the County's new flood maps, they may be required to have a flood insurance policy. Most mortgage lenders will require that they have such a policy as part of their loan agreement, if their structure is in the boundary of the flood zone.

If property owners are moving into the high-risk flood area for the first time with the new maps, it is in their best interest to obtain a policy prior to the adoption date of August 28 in order to grandfather the policy to a lower rate structure for their premium. Also remember that flood insurance has a 30-day wait period to

become effective, so residents need to buy it before July 28. This is especially important if their structure was built prior to 1980. It is considered Pre-FIRM and follows a higher pricing schedule, unless they grandfather their property before the maps take effect.

Residents can view the updated maps online by going to the County's website.
(See the specific instructions below.)

The County released the preliminary new flood maps in November 2006, and held a series of nine public meetings and 18 open houses throughout the County to inform residents about the update and let them review the maps. Property owners were able to protest the changes to the maps if they had evidence the maps were incorrect. The County has since been working with FEMA to ensure all corrections were made to the maps and the necessary Code changes were completed in preparation for the update.

The update of these maps is one of the County's many floodplain management activities. These activities are reviewed on an annual basis by the National Flood Insurance Program and result in residents receiving discounted flood insurance rates. Currently, residents within the unincorporated county receive a combined \$5 million dollars in discounts annually on their flood insurance rates due to the County's efforts.

For more information about this process, residents can visit the Flood Map Update website listed above or contact their lender, insurance agent or the County's Building Services Division at 272-5600.

The following pages are a list of just those 1,003 properties that have been classified as "Parcel In - Structure Out" for Sun City Center.

If your property is not on the list, it can mean good news or bad news. The good news might be that you are high and dry. The bad news might be that your structure is in the flood plain. It's very easy to figure out if your home is in the flood plain:

go to the County's website at www.hillsboroughcounty.org
click on the "A-Z Index" link at the left,
click on "F",
click on "Flood Map Update Process",
slide down near the bottom and click on "View the New Proposed Flood Map",
slide down near the bottom and click on
 "View your property on the online searchable flood map viewer",
enter your address (number and street name only without "st", "ct", "blvd", etc.)
 and click on "Process",
click on "Get Information",
your property will be displayed after a few seconds.

If the red-hatch, which is the flood plain area, touches you house, the flood-plain gods have not looked upon you with favor.

I have not yet been given the official spreadsheet for the 80+ "Structure In" properties for SCC, but should receive it within the next few days at which time it will be posted here also.

This data is for individually owned parcels. Therefore, Kings Point information is not included in these listings since their land is communally owned and flood insurance has already been bought for the affected properties.

The following list is from the preliminary spreadsheet that the county provided two weeks ago. Note that FEMA and the County will issue the "official" cover letter and list around August 28 at which time it will be posted here. That will be the official letter and the page with your address that you will present to your mortgage holder to try and convince them that flood insurance isn't necessary.

But don't wait until then to buy the PRP insurance if you think your mortgage lender might force you to buy the more expensive flood insurance later on. Buying the cheap insurance now will pay for itself within one year, and forever after that, if you're required to buy the expensive insurance later, because you will get about a 20% discount on the expensive insurance because you will be "grandfathered in". And the grandfathering sticks with the property when your kids inherit it after you've gone to the big retirement village in the sky. If you think you're going to need it, be sure to buy the PRP insurance before July 28! But, don't buy too much PRP insurance. It's not like your house is going to wash away. At most, you probably won't get more than a couple of inches of water which would only ruin the carpet and some drywall.

Please keep in mind that if you don't have a mortgage or equity loan, you are not required to buy any flood insurance.
