

Preliminary Flood Plain Status for Sun City Center Residents

Hillsborough County has released the updated flood plain maps for Sun City Center!

The following twenty pages are the flood plain status of properties in Sun City Center. The listing is based on a draft spreadsheet provided by Eugene Henry (307-4541) and Chris Zambito (307-4510) of the Hillsborough County Hazard Mitigation Department. This information will be finalized in the Fall of 2007. This data is for individually owned parcels. Therefore, Kings Point information is not included in these listings since their land is communally owned.

If your property is not on this list, congratulations! You are high and dry.

If your property is on the list, it is classified as either:

Parcel In, But Structure Out of High-Risk Flood Area (about 700 homes), or
Parcel & Structure Now In High-Risk Flood Area (about 80 homes).

Not all of the properties around North, Middle and South Lakes are listed, however, they will all be classified as "Parcel In, But Structure Out of High-Risk Flood Area."

To learn more about what it all means to you, the County will hold a community meeting about the flood plain on Tuesday, December 12, from 10am until noon, in the SCC Community Hall on South Pebble Beach. There will be a presentation and also booths where you can look at the maps online, pick up material, ask questions, etc.

There will be two additional opportunities for area residents to get information. The County will have an open house on Friday, Dec. 15, 2-6 p.m. and Saturday, Dec. 16, 12-5 p.m. at the new SouthShore Regional Library at 15816 Beth Shields Way. And then a follow-up one for area residents will be on Wednesday, Jan. 10, 12-5 p.m. at the SouthShore Regional Service Center at 410 30th Street SE. These are intended to be additional opportunities for residents to come in and talk to staff about technical issues, get help pulling up their property if they still need it, pick up literature, etc.

The updated maps for individual Sun City Center properties will be posted on the County's website around December 1. Go to www.hillsboroughcounty.org/, click on "Mapping the Risk: Flood Map Update." There is additional information at www.SunCityDave.info/, click on "Flood Plain Information."

The small print: I'm just the messenger... Neither I nor the SCC C/A takes responsibility for the accuracy of these lists. The County's website after Dec 1 and then their Community Meeting on Dec 12 is the ultimate authority. Dave Brown - 634-6048.
